## Introduction

College students should be encouraged to familiarize themselves with the placement office at their college as soon as they begin their studies and to use its services regularly. These services include posting of available jobs, on-campus recruitment by many different employers, help with résumé and interview preparation, and provision of a variety of career-related information. The placement office can help students find jobs that are directly related to their program of study.

This report portrays statistically the job placement experience of the 1985 graduates of full-time postsecondary programs at Ontario's twenty-two colleges of applied arts and technology. The report contains data for individuals who graduated during the period from September 1984 to August 1985, inclusive. The data were collected from graduates up to and including November 15, 1985. It should be noted that graduates in many health science programs (i.e., nursing, radiography) are not available for work until early fall and, as a result, have a shorter period of time within which to find employment, for the purposes of this report.

The report is intended to serve as a resource for students in selecting college programs and for counsellors in advising students on program selection and career planning.

Since the report is a provincial overview, local or regional employment patterns may vary considerably from the province-wide data it contains. To obtain a more accurate picture of employment trends and opportunities in a particular area, readers are advised to contact the placement office of the college located in the region. The staff of each placement office puts a great deal of time and effort into the preparation of this report and consequently has detailed information for its own geographic area on various topics (e.g., location of jobs, types of employers, economic trends affecting jobs, salaries, etc.).

## Introduction

Dès leur entrée au collège, les élèves doivent être encouragés à se familiariser avec le bureau de placement de l'établissement qu'ils fréquentent et à utiliser ses services de façon régulière. En effet, ces bureaux affichent des offres d'emploi, sont en mesure d'aider les élèves à rédiger un curriculum vitae et à se préparer à une entrevue, recrutent des employés pour de nombreux employeurs et fournissent une information variée sur les métiers et les professions. Ils peuvent aider les élèves à trouver un emploi directement lié à leur programme d'études.

Dans ce rapport, on trouvera les statistiques d'emploi concernant les diplômés de 1985 des vingt-deux collèges d'arts appliqués et de technologie de l'Ontario. Ces données se rapportent aux élèves à temps plein qui ont obtenu leur diplôme entre septembre 1984 et août 1985 inclusivement. Elles ont été recueillies auprès des diplômés jusqu'au 15 novembre 1985 y compris. Il faudra toutefois tenir compte du fait que les diplômés des divers programmes de sciences de la santé (sciences infirmières, radiographie, etc.) ne peuvent pas commencer à travailler avant le début de l'automne et qu'ils ont donc eu moins de temps pour chercher du travail.

L'objet de ce rapport est, d'une part, d'aider les élèves à choisir des programmes d'enseignement collégial et, d'autre part, de permettre aux orienteurs de les guider dans le choix de leurs cours et la planification de leur carrière.

Étant donné que le rapport donne une vue d'ensemble de la situation provinciale, il est possible que les conditions diffèrent grandement à l'échelon local ou régional. Pour avoir une idée plus précise des tendances du marché et des débouchés offerts dans une région donnée, les lecteurs sont priés de se mettre en rapport avec le bureau de placement du collège de cette région. Le personnel de ces bureaux a consacré beaucoup de temps et d'efforts à la préparation du présent rapport. Il dispose de renseignements détaillés qui reflètent mieux la situation locale : où chercher du travail, types d'employeurs, tendances économiques qui influent sur le marché de l'emploi, salaires, etc.

## Données statistiques générales

Placement statistics concerning graduates of programs that are offered in English only are presented on pages 7-15. Similar data for programs that are offered bilingually in English and French or in French only can be found on pages 16-19.

The following summary shows the total number of graduates and their associated employment statistics for the past academic year. It should be noted that, of the 3511 graduates who were still seeking full-time work, 44 per cent had been successful in securing part-time employment while awaiting full-time work.

For further information, please contact the placement office at your local college.

On trouvera aux pages 7 à 15 les statistiques sur le placement des diplômés qui ont suivi des programmes offerts en anglais seulement. Des données similaires sur les programmes offerts en français ou dans les deux langues se trouvent aux pages 16 à 19.

Le tableau qui suit donne le nombre total de diplômés ainsi que les statistiques concernant leur situation sur le marché du travail pour l'année scolaire passée. Il importe de noter que sur les 3511 diplômés qui étaient encore à la recherche d'un emploi à temps plein, 44 pour 100 avaient réussi entre temps à obtenir un travail à temps partiel.

Pour plus de renseignements, veuillez contacter le bureau de placement de votre collège.
